The Coming Teachers' Institute. The Coming Teachers' Institute.
The public schools of this city will close to morrow and remain closed until after the holidays. The reason for this closing nearly a week before Christmas is to allow the teachers an opportunity to attend the Peabody Teachers Institute that is to be held in the large and handsome grammar room of the Fifth ward school house, commencing Welnesday, morning and continuing every day of the week, with lectures at night by well known and popular instructors. The programme has not as yet been fully arranged.

any of the week, with decures at hight by well known and popular instructors. The programme has not as yet been fully arranged.

Prof. Parker, of Boston, has signified his inability to be present, and Rev. A. B. Miller, of the Waynesburg College, has been secured in his place. Prof. W. K. Pendleton, of Belhamy College, will also be present at some time during the Institute. Prof. Peaslee, of Cinclinnati, who so successfully conducted last winter. Prof. Patterson, of Choclinnati, will also be present. It is expected that one hundred and fifty or two hundred teachers will be in attendance. State Supt. Butcher and Giy Superintendent Birch have worked hard to make this year's meeting a greater success than that of last year, Teschers of this city must attend the day sessions or suffer a reduction of salary. An interesting feature will be the coutost between classes, one from each Wheeling school, for the banner that was won last year by Clay school. What study the scholars will be tested on its noty of decided.

Mr. Heary George, the American author who want to Ireland to write letters to the Irith World, of New York and was imprisoned as a "suspect," arrived in the city Saturday evening, and is at the St. James Hotel. A number of gentlemen called upon him yesterday, and last night when an Ivrationsexar reporter dropped to be found him holding an impromptu levee. He is a keen but kindly looking man of middle age, rather short and heavy set, with sandy hair and heard. His purpose in visiting Wheeling is to deliver a lecture at the Academy of Music on his "Impressions of Ireland."

Mr. George is the author of a very radical work on political economy, called "Progress and Poverty," and of a book on "The Irish Land Question." He was in Ireland only a short time when he, with a Iriend from London, were arrested as "suspecta." They were soon released, but the next day George was rearrested in the ext day George was rearrested in the next day George was rearrested in a little protection. The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the enty sure and quick way to drive it out is to purify and enrich the blood.

it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause head-ache, and are otherwise injurions.

BROWN'S IRON ENTITIES will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause head-ache or constipution, and is positively not injurious.
